About Autism Awareness Month:

In order to highlight the growing need for concern and awareness about autism, the Autism Society of America has been celebrating National Autism Awareness Month since the 1970s. The observance provides an opportunity for the ASA, its State chapters, and others in the autism community to educate the public about this disorder. World Autism Awareness Day shines a bright light on autism as a growing global health crisis. WAAD activities help to increase and develop world knowledge of the autism epidemic and impart information regarding the importance of early diagnosis and early intervention. The Autism Speaks Organization will celebrate with a variety of events at the opening bell at the New York Stock Exchange, Yoko Ono Lennon at the U.N. and an online Walk With Wubbzy.
